Linn Community Care
Cedar Rapids, Iowa

As the sole preferred permanent physician recruiting company of the **National Association of Community Health Centers (NACHC)**, Merritt Hawkins has the privilege of partnering with community health centers nationwide. We are proud to put our unique, consultative approach to work for CHCs seeking mission-driven physicians. In the following client assessment, Tim Olsen, Administrator of Linn Community Care, a CHC in Cedar Rapids, Iowa, discusses how Merritt Hawkins worked with his facility to meet a key recruiting need.

“Our reason for partnering with Merritt Hawkins was to recruit an obstetrician/gynecologist.”

“There was a challenging search, primarily because it is difficult to find the right match when you are seeking OB/GYNs for a community health setting.”

“In rating Merritt Hawkins as a partner, I would point out that we worked well with our search consultant throughout the process.

“Merritt Hawkins’ consultants took the time to understand our opportunity and organization **and to make sure candidates would fit not only personally and professionally with us, but also with our overall mission.** The detailed process was exactly what we were looking for.”

“I would certainly use Merritt Hawkins again and I would absolutely recommend them, **especially to community health centers.**”
