Shelley Sant
Director of Marketing
Primary Health Network
Sharon, Pennsylvania

Merritt Hawkins, the nation's leading physician search and consulting firm, is proud to be the sole partner for permanent physician recruiting of the National Association of Community Health Centers (NACHC). Merritt Hawkins was selected by NACHC based on the in-depth experience we have developed working with community health centers nationwide. In the following client assessment, Shelley Sant, Director of Marketing with Primary Health Network, a CHC in Sharon, Pennsylvania, evaluates the on-site, consultative services Merritt Hawkins provided to her center.

"We selected Merritt Hawkins to partner with us in a search for a psychiatrist who was needed to help us with a service contract in the Altoona area."

"Merritt Hawkins' response to our particular needs was excellent."

"In evaluating the firm's services I would point to the on-site consulting they provide. Our Merritt Hawkins recruiting consultant arranged a site visit with me and the staff, which was essential in developing the first-hand knowledge required when speaking with candidates about our opportunity. It was also great for us to know who we were working with."

"Our consultant has great communication skills and kept me informed weekly on her progress with our search. She made herself available to come to meet and have dinner with the candidates that she found for us prior to the candidate's arrival on-site."

"I have worked with other physician recruiting companies and there is no comparison – Merritt Hawkins outshined all the others!"

"Based on our experience, I would both use Merritt Hawkins again and refer them to others."
